Year 1926

3800 Rookwood Avenue
Indianapolis, Indiana

IN presenting our catalogue for this year we do so with our best wishes to you for the year 1926. If some of the new varieties we offered you or, if the stock of standard varieties we supplied you is "making good," we are glad.

Growers find it advantageous to renew their stock of the older varieties for the sake of added vigor and to displace old worn out varieties with the new improved sorts. It is our aim to supply clean, vigorous young stock, and to offer you the new varieties as they become available from our own seedlings as well as from other sources. We are proud of our new carnations and chrysanthemums, introduced in past years, and we are glad to inform you that we have more good things coming on. Those offered in this catalogue have "proven up" and we give them our unqualified endorsement.

We invite your inspection at any time. You will find a visit to our place both instructive and pleasant. We will be glad to discuss with you the development in new varieties as well as in cultural methods.

When sending an order, please state plainly your wants. Designate the varieties by the names given in this catalogue. Give your full address and shipping directions. We pack carefully and will do everything possible to have goods reach you in good condition, but cannot guarantee their safety beyond delivery to the forwarding company.

In opening an account, please give at least two trade references other than banks. All bills are due on the first day of the month following delivery of goods.
